ALEENA SEBY

FULL-STACK DEVELOPER

📍 Calgary, Canada 💹 aleenaseby95@gmail.com 📞+1 587-969-1841 🌐 <u>aleenaseby.github.io</u>

SUMMARY

Full Stack Developer over 6 years of experience building dynamic and end-to-end web applications. Skilled in creating user-friendly front-end interfaces using React.js, Vue.js, and Angular, and developing robust backend services and APIs with Node.js, Python. Strong background in database management (MongoDB, MySQL, SQL Server) and implementing secure authentication/authorization (JWT, OAuth). Experienced in building RESTful and GraphQL APIs and in DevOps practices like deploying applications on AWS, containerization with Docker/Kubernetes, and CI/CD automation. Committed to writing clean, testable code and collaborating in Agile teams.

SKILLS

- Programming Languages: JavaScript (ES6+), TypeScript, Python
- Front-End: React.js, Vue.js, Angular, HTML5, CSS3
- CSS Frameworks: Tailwind CSS, Bootstrap, Material UI
- State Management: Redux, React Context API
- Back-End: Node.js (Express), Django
- Databases: MongoDB, MySQL, SQL Server
- APIs & Authentication: RESTful APIs, GraphQL, JWT, OAuth 2.0
- DevOps & Tools: AWS (EC2, S3, Lambda), Docker, Kubernetes, CI/CD pipelines (GitHub Actions)
- Testing: Jest, Mocha (Unit Testing), A/B Testing
- Tools: Chrome DevTools, Postman, Git, Jira
- Methodologies: Agile (Scrum), Code Reviews

PROFESSIONAL EXPERIENCE

Technology Analyst, Infosys Ltd. Calgary, Canada

Nov 2022 - Present

- Worked on migrating a large-scale e-commerce platform to **Contentful (CMS)**, making the site more scalable, easier to maintain, and faster to update across different user experiences.
- Built and enhanced features using **React.js** (**Context API**, **custom hooks**) and supported backend integration with **Node.js** services to create a seamless user experience.
- Used GraphQL for efficient data fetching, improving both the speed and reliability of the application.
- Took ownership of major sales events, helping drive a 2× increase in user engagement and cutting bounce rates by around 20%.
- Acted as Release Captain for multiple sprints, leading deployments to stage, beta, and production environments through GitHub Actions and managing CI/CD pipelines for smooth and timely releases.
- Monitored production performance using **New Relic** and **Quantum Metric**, quickly catching and fixing issues like JavaScript errors, GraphQL failures, and **CWV** spikes after releases.
- Wrote thorough test cases using **Jest**, helping maintain high-quality standards and reducing bugs in production.
- Regularly conducted code reviews, mentored junior developers, and leveraged GitHub Copilot to accelerate feature development while maintaining high code quality standards.

Technology Analyst, Infosys Ltd. Bangalore, India

April 2021 - Oct 2022

- Created SSO authentication systems using ForgeRock and Node.js, integrating them into React
 UI for improved security and user experience.
- Developed key features in an **OutSystems** web application for a sales compensation adjustment app, contributing to system scalability and performance.
- Collaborated in **Agile scrum** teams on project estimation, code reviews, and peer feedback to maintain high-quality standards in project delivery.
- Utilized **Jira** for project management and **Git** for version control, ensuring smooth and coordinated workflows.

Senior Systems Engineer, Infosys Ltd. Bangalore, India

Feb 2020 - March 2021

- Developed user-facing applications using **Vue.js**, including **Vue CLI**, **Vuex**, **and Vue Router**, creating dynamic and responsive Uls.
- Designed and implemented **RESTful APIs** for seamless communication between front-end and back-end systems.
- Ensured **cross-browser compatibility**, usability, and accessibility for consistent user experience across platforms.

Associate Software Developer, CCS Technologies, Kochi, India

Oct 2018 - Jan 2020

- Developed a B2B e-commerce platform using **Angular** and **Node.js/Express**, ensuring seamless front-end and back-end integration.
- Built a healthcare application using **Python/Django**, allowing users to receive real-time symptom diagnosis and patient guidance.
- Developed a **chatbot** with **AWS Lex** for customer support.

Junior Software Developer, Rossaads Solutions, Kochi, India

Aug 2017 - April 2018

• Developed ASP.NET MVC applications with SQL Server, automating customer workflows.

PERSONAL PROJECTS

- Task Management App: Full-stack app with user authentication, real-time updates, and a responsive UI. Built with React.js, Node.js, MongoDB, WebSockets, Docker, and deployed on AWS EC2 for scalability.
- Weather App: Real-time weather updates using Vue.js, OpenWeather API, and Firebase.
- Personal Portfolio: Responsive portfolio built with HTML, CSS, JavaScript, displaying projects via GitHub API.

EDUCATION

Bachelor of Technology in Computer Science EngineeringGraduated from University of Calicut in the year 2017

2013-2017
